TRIZfest-2025 – Join the World’s Largest TRIZ Conference!

Yogyakarta, Indonesia | 11–14 November 2025

Connecting Minds, Methods, and Machines to Co-Create Innovations for Global Challenges

TRIZfest-2025 marks the 20th anniversary of the International TRIZ Conference — and this year’s event promises to be our most exciting and diverse edition yet! Organized together by **The International TRIZ Association (MATRIZ)**, **InTRIZ**, **MyTRIZ**, **Universitas Islam Indonesia**, and **Passage to ASEAN** the conference will bring together TRIZ experts, practitioners, educators, and enthusiasts from all over the world.

The **TRIZfest-2025 program** will offer a rich and varied experience over four days – a perfect blend of learning, practice, and inspiration.

Participants will enjoy an engaging agenda that combines **tutorials, paper presentations, talk shows, and interactive panels** featuring global TRIZ experts, industry practitioners, and academic leaders.

Over 30 papers will be presented during TRIZfest-2025, covering TRIZ methodology and tools, TRIZ in business, TRIZ pedagogy, and, as always, inspiring case studies showcasing how TRIZ is applied in practice across industries and technologies.

By joining TRIZfest-2025 in person, you’ll experience the warm hospitality of Indonesia, engage directly with global TRIZ leaders, and enjoy the unique atmosphere of one of Southeast Asia’s most inspiring cities.

Can’t travel? You can still participate online and be part of every key session from wherever you are.

Be Part of TRIZ History

For all previous editions, TRIZfest has been the premier international gathering of TRIZ experts and enthusiasts, providing unmatched opportunities for learning, collaboration, and innovation. TRIZfest-2025 continues this tradition, uniting minds, methods, and machines to shape the future of systematic innovation.
