

TRIZfest-2025

Call for abstracts

Connecting Minds, Methods, and Machines to Co-Create Innovations for Global Challenges

Dear friends, practitioners and enthusiasts of TRIZ,

As every year, your personal involvement is essential to make our Conference succeed. Whether you're submitting a paper, presenting groundbreaking research, or attending to share knowledge, your participation drives this event forward and makes it even more memorable.

We invite you to join us not only in discovering the TRIZ combined with Minds, Methods, and Machines, we invite you to create a framework for such a combination and such development.

Please feel invited to submit abstracts of your works, including research and practical papers, case studies and project results descriptions. We accept a wide range of topics, yet related to the fundamentals of TRIZ methodology. We are happy to see the point of view of various individuals from diverse backgrounds, disciplines, and perspectives (**Minds**). We want to see how they use different systematic approaches, frameworks, and methodologies (**Methods**), and how this influence technology, artificial intelligence, automation, and advanced computing (**Machines**).

We firmly believe that thanks to your extensive interests, your willingness to share your knowledge, and your enduring will to develop and promote the TRIZ methodology, this year's TRIZfest conference will be one of the most interesting and developing.

Abstracts, Papers and Presentation submission schedule:

- *Abstract Submission Deadline: **May 30th, 2025***
(download the template from here: [Abstract template](#))
- *Notification of Abstract Acceptance: **July 1st, 2025***

Submission Terms & Agreement

By submitting an abstract, paper, or presentation (hereafter "submitted materials") for TRIZfest-2025, the author(s) automatically agree to the following terms:

1. Public Availability and Licensing:

*The author(s) grant the TRIZfest-2025 Organizers a non-exclusive, irrevocable license to publish their full name(s), surname(s), and the entirety of the submitted materials under the **Creative Commons Attribution License (CC BY 4.0)**. This includes:*

- *Presentation of the work during the TRIZfest-2025 conference.*
- *Publication in the official conference proceedings, which will be publicly distributed in digital and/or print formats.*

2. Author Responsibility:

*The Organizers of TRIZfest-2025 assume **no responsibility** for the content, accuracy, legality, or originality of submitted materials. The author(s) retain **full responsibility** for:*

- *Ensuring the work does not infringe upon any third-party intellectual property rights (e.g., copyrights, trademarks, patents).*
- *Verifying the factual and ethical integrity of the content.*
- *Obtaining permissions for any third-party materials (e.g., images, data) included in their submission.*

3. Rights and Permissions:

*By submitting materials, the author(s) confirm they hold the **necessary rights** to grant the above license and that the work:*

- *Is original or properly licensed for reuse/adaptation.*
- *Does not violate confidentiality agreements or legal obligations.*
- *Complies with all applicable laws and ethical standards.*

Submission of materials constitutes explicit acceptance of these terms.
